

## ERG - ALERION AGREEMENT

Milan, 20 September 2006 – As already communicated to the market (in press releases dated 27 July and 3 August 2006), the agreement reached between Alerion Industries S.p.A. and ERG S.p.A. – which defines the guidelines for the joint development of their respective activities in the wind power sector and regulates their respective dealings as EnerTAD shareholders – was contingent on obtaining by today the approval of the lending banks that are signatories of the Convention of 31 December 2005 with the TAD Group.

Alerion and ERG communicate that the banks have responded positively in this regard.

Since some of the positive responses need to be formalised, ERG and Alerion have agreed to wait until 16 October 2006 to proceed with the transaction that will lead to ERG acquiring the majority of the share capital of EnerTAD, thus executing the agreements set forth in the agreement signed on 27 July and already the subject of past press releases.
